District Forest Ranger Roy Saarni today announced that as a result of a violation of a clause of a 5-day, short-term burning permit issued April 17, all burning on the freeway project near Donner Lake has been suspended until further notice.

Briggs, Conley and Dennis, the contractors, were cited yesterday for the alleged violation, appeared before Judge F. W. Wilson and entered a guilty plea. Sentence is pending.

San Luis Firm Has Low Bid For Work On Tahoe Highway

$1,052,520 Project To Be Started Within Month At Lake

The state division of highways today received a low bid of $1,052,520 for widening 8.1 miles of State Sign Route 28 along the north shore of Lake Tahoe, according to officials at the Marysville district office.

Madonna Construction Company of San Luis Obispo was the lowest of four bidders for the job which will run from 2.5 miles east of Tahoe City, at the top of Dollar grade, to the Nevada state line.

Work will start after contract approval, probably within a month, and is expected to take about six months to complete.

For about three miles through commercial areas, mainly in the Kings Beach region just east of the state line, the existing road will be widened to 64 feet to provide a four-lane highway. The remainder will be two lanes widened to at least 32 feet, and to 40 feet where right of way permits.

No detours are available and traffic will be permitted to pass through the construction zone at all times with a minimum of inconvenience or delay. One-way traffic control will be required at some locations during certain phases of work. However, no work which will interfere with the passage of traffic will be performed on Saturdays, Sundays or holidays.

The section between Tahoe City and the beginning of the project will be resurfaced to its existing width under a separate contract. Bids for that job will be opened May 3.

NORTH TAHOE BRIEFS..

. . . by BETHEL

Paris,France, "News for Briefs." Norbert Van Buren of Crystal Bay has been awarded a great honor by the French government. The president of France, General DeGaulle, has conferred on him the Knights Cross of the Legion of Honor.

Van Buren has been living in Paris for several years as president of the French subsidiary of California Chemical Company (Standard Oil of California).

The Van Buren plan to spend this summer at their home at Crystal Bay.

Congratulations on receiving this honor, Mr. Van Buren, the esteem and glory of which is reflected to Lake Tahoe and we are mighty proud.

Lake Tahoe-Sierra Chamber of Commere board of directors met Thursday, April 20 for luncheon and business meeting at Buckhorn Inn, Kings Beach. Selby Calkins, president, has a stupendous announcement which—it is hoped—he will make.

The chamber has moved into its new office in Kings Beach in North Tahoe Village — Bob Daneri's building with Velda Farris answering the phone and numerous callers. Three new members this week. We are growing—get in line with your application and check for membership.

A dramatic moment in the lives of three persons occurred in Crystal Bay this past week. Mrs. Pearl Hensley of Oakland came to visit her nieces whom she had not seen for 30 years, mere children when she left Oklahoma. Carol Harris of Kings Beach and Pearl Draney of Incline Beach had a wonderful reunion with their aunt and all visited points of interest and celebrated with family dinners. Pearl Draney is her aunt's namesake. According to nieces, Mrs. Hensley will be a regular visitor henceforth.

E. C. "Ted" Lewis is changing his name to E. C. Money Lewis, so he says. Coming to work Wednesday morning, found the door open—the welcome sign not visible however—and the cash box open—all by force. Further checking revealed the fact that $89.71 had been taken by the unwelcome visitor.

Ted operates the Brockway-Richfield station at Kings Beach and lives at Tahoe City.

Lt. Bob Moustis of the sheriff's office is investigating the robbery following taking fingerprints, while Ted is still shook-up after his starring role in this cops and robber episode.

Doug Baxter of Kings Beach and cubmaster reports that over $300 was realized at the benefit buffet held at the Crystal Bay Club last Friday. This money is to be used for field trips and outings.

The cubs are also having a clean-up day in Kings Beach on May 6 with Cubmaster Baxter and all the den mothers supervising the 35 cubs. Incidentally, parents of the cubs, and friends of the cubs, and local interested persons, and just people, are invited to this turnout to clean-up Kings Beach beach and streets. How about it? Bring your lunch too.

Jimmy Chastain — the civic minded citizen—has donated several oil drums to the cubs. The drums will be painted and lettered by the cubs and placed in strategic spots in Kings Beach, downtown area, and on the beach. Great.

Lake Valley Fire Station on the south shore of Lake Tahoe was the spot for an inner agency meeting for the cooperative fire plan for the summer to which all fire districts attended. Fire chiefs, Jack Hepner, Squaw Valley; Doug Ingram, Incline Beach; Al Henry, Tahoe City; and Joe Fulton, Kings Beach represented their districts, and also present were representatives of the U. S. Forestry and California Division of Forestry and Nevada Division of Forestry.

Note: Burning after April 15 will need a permit, incinerator and yard burning, new hours, 5 a. m. to 10 a. m. Go to your respective fire departments or houses for your permit.

VFW installation was held at Crystal Bay Club with members enjoying a steak dinner. Pearl Moore was installing officer with Pearl Martin assistant; Pearl Draney was installed as president; Bea Snell, senior vice president; Dorothy King, junior vice president; Louise Walter, chaplain; Ethel Antonson, conductress; Cleta Liddle, patriotic instructor; Mae Weathers, guard; Pearl Moore, treasurer; Ruby Clackett, Esther Horstman, Gladys McClellan, May Murray, Lolita Decker, Bernita Jones flag bearers; Wande Brooks, one-year trustee.

VFW Auxiliary and Post No. 7077 are urging residents to take toys and good used clothing for McDermit Indian Reservaiton to Town and Country Variety. Estelle Molsberry will store contributions and donations until the accumulation warrants a trip to McDermit with a truck.

With spring clean-up week being observed by the fire district, this is a good time to rid oneself of "too good to throw away" items, accomplish two tasks at once, as well as doing a good turn.

Sierra Construction was the winner in the Tahoe Sierra Bowling Association championships held at the Kings Beach Bowl. Milan Hair Stylist and Sierra Construction No. Two runners up.

Ray Gawronski of Kings Beach has accepted a position at the Kings Beach Bowl—however, he is still assisting Bob Leathers in the TV business. Busy man.

T. J. MacFadden, who made this job possible for Ray, is now bowling in the National Men's Tournament in Detroit. Good luck, Mac.

Betty Baxter, Cubmaster Doug Baxter's wife, reports a group of den mothers will accompany her to "Queen for a Day" at the south shore on Tuesday, May 9. Watch this TV broadcast, maybe one of our local gals will be winner of the crown that day.

Happy birthday, Joe Fulton, Jr. on March 29. Wife Pat and son Chuck of Sunland celebrated at parents home, the Joe Fulton, Srs. of Kings Beach. Brother James from Visalia also joined the happy party.

STRIKES & SPARES

BY JOE WILMAN

THE UNSUSPECTED CAUSE OF MANY A FOUL

I can say with all honesty that "Willie the Worrier" has done himself right at last. He finally has a real worry, and this time it's serious. He began fouling. Almost every game he'd go over the foul line at least once.

I told him to start further back on the approach, figuring he needed more room. He tried it and told me it cut out his fouling, but he was now releasing the ball on the approach.

So, I watched Willie roll a few balls and saw his fouling wasn't the result of starting too near the foul line—his problem was locking the left knee in the final step and slide. This was bringing him to a sudden, jerking finish instead of a smooth, sliding stop. It would throw him off balance and often cause him to hop over the foul line.

First, I moved Willie back to his original position on the approach. Next, I worked on his footwork to develop a slight bending of the left knee as he slid to a stop—just as I illustrate in the sketch. It took a couple of sessions with Willie—without the ball—before we got him to bend the left knee automatically.

That took care of Willie's fouling habit, but I'm sure he'll have some new "worries" soon!

DONNER DOINGS

By VIRGINIA O'BEAR

Construction seems to be starting up on the new freeway job here at Donner Lake. More and more people seem to be going back to work and the noise of the heavy equipment can be heard during the day. This is all fine and wonderful and you just can not stop progress but I really wish there was some way we could stop this burning. All of the local Donner residents are getting the jitters because we discovered the construction company has a permit to have open fires to burn the debris for several more months. Seems they could haul it away and have it burned elsewhere so it would not be so dangerous. With the strong winds we have been having, it wouldn't take much to have another disaster such as we experienced last August. This year there is burning on the Donner side of the access road near the west end of Donner and it is a little too close for comfort. Can't we do something?

* * *

The Donner Lake Volunteer Fire Department met for their regular meeting at the fire house last Thursday evening. With the dry year we are all expecting, the firemen will probably be kept pretty busy so they are continuing to meet the second Tuesday and fourth Thursday of each month.

* * *

The Ladies Auxiliary of the Donner Lake Volunteer Fire Department will meet at Donner Lake Lodge this Thursday evening wearing their crazy hats made out of kitchen gadgets. The dinner starts promptly at 7:30 p. m. and many guests will be introduced to the members. One will be Miss Donner Lake of 1960, JoAnne Pomin. She will help Hap Warnke and Dr. Wiser award the prizes for the crazy hats. Four ladies from Kings Beach will be with us us they are interested in getting a few ideas on how to organize an auxiliary for the Kings Beach Volunteer Fire Department. We will be very happy to have Ella Rae Fulton, Jean Little, Louise Walters and Pearl Draney as our guests. Anyone else interested in attending is always most welcome, and need not be a member to come. The Ladies Auxiliary is very proud of the service clubs in our area who are participating in our Miss Donner Lake contest and box social. Not only does it give our young ladies a very thrilling and exciting year it helps advertise the Donner Lake Regatta and lets people know everywhere that we have active organizations in our Truckee-Donner area and that there is plenty to do in our year 'round vacationland.

* * *

Many Donner people are returning from vacations and are getting ready to settle down to a busy summer. Paul Horman returned last week from Las Vegas after spending a week. Mr. and Mrs. Dan Horman and daughters Pam and Donna spent a week at Monterey returning home Saturday. Mr. and Mrs. Richard Walker have been away for two weeks spending most of their vacation time in Hawaii. Mrs. Roy Slate, daughter Joyce and grandson Rodney spent last week in Rodeo with Ozella's folks, Mr. and Mrs. Floyd Sharp. Milla Johnson is in Encino and will be home for the box social and queen coronation. Milla is the one who made the beautiful robe for the queen to wear this year. Many other people are planning trips but to me, we have one continual vacation paradise right here at home and if we can quit working long enough to enjoy it, we won't have to travel far to go fishing boating, swimming, etc.

* * *

The Tony St. Claire home was the center of attraction last Thursday evening when guests arrived to find the delicate colors of yellow and green carrying out the theme of a baby shower in honor of Mrs. Douglas Brodie. Hostesses for the party were Mesdames St. Claire, Robert Affeldt, Ray Wiser and Ben King. After the games and the opening of the baby gifts, cake and coffee was served to the following ladies: Mesdames R. L. Harris, Bud Fulcher, Ed Doolittle, Henry Slack, George Symons, Harold Gilson, Rex Reid, Hans Osterud, Jack deRyk, R. L. Garwood, Ralph Johannson, Richard Quist, Zeph Rose, Phil Vahey, Charles Fink, Roger Brown, Charles O'Bear, Evelyn Alexander and Ann Merker, and the four hostesses.

A correlative passage to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy states (p. 446): "To understand God strengthens hope, enthrones faith in Truth, and verifies Jesus' word: 'Lo, I am with you always, even unto the end of the world.'"

The Golden Text is from Revelation (3): "He that overcometh, the same shall be clothed in white raiment."

DONNER SUMMIT NEWS

By LLOYD W. GAY

SUMMIT WEATHER

A long warm siege of spring weather was broken briefly by a storm Tuesday, April 11, which left seven inches of snow and nearly an inch of moisture. Daytime temperatures have been consistently in the 50's, and nights have dropped around the freezing point. During the past week the maximum temperature records at Soda Springs was 60 degrees on April 16, and the minimum dropped to 15 degrees the night of April 12. Under the continued warmth, the snowpack at the Centeral Sierra Snow Laboratory near Soda Springs dropped from 82 inches on March 28, to 42 inches on April 17.

POTLUCK DINNER

NEWS AT SCHOOL

Principal Rex Anderson announced that the annual open house for parents will be held Tuesday night, April 25. The school band will present several numbers under the direction of Director Ross Price.

Parents in the summit area will be sorry to learn that Mrs. Gloria Read has resigned her position, and will not be teaching at the Donner Trail School this coming year. A replacement has yet not been named.

WESTERN SNOW CONFERENCE

Bob Zeimer attended the Western Snow Conference in Spokane, Washington this past week, as he and Al West represented the California Cooperative Snow Research program.

SCHOOL BOARD MEETING

At the regular April 18 school board meeting, it was announced that Max Williamson was elected to the board for the coming year. Also it was announced that the plans for the addition to the Donner Trail School were approved, and it was anticipated that requests for bids would be considered at a special meeting of the board on May 17.

The Truckee Rotary Club has elected Ralph Rowton, Sierra Lakes Club as its president for 1961-62. Ralph, a long-time Rotarian, will be assisted by Barak Wright, secretary and Harley Mann, Harold Drummond and Fosten Wilson on the executive board.

FUND ALLOCATED FOR FRONTAGE HIGHWAY

The state highway commission has allocated $175,000 for construction of a frontage road on U. S. 40 between 1.5 miles east of State Sign Route 20 and 1.9 miles west of Cisco, Capitol News Service reports.

The frontage road will be necessary in connection with the future freeway construction between 2.8 miles west of Cisco and Hampshire Rocks, for which the commission recently budgeted $7,500,000.

The frontage road, planned for early construction, will serve a new location for the Big Bend Camp Ground.

The commission also allocated $194,500 for grading and resurfacing to reconstruct and widen FAS county road (Mooney Flat Road) between State Sign Route 20 and 2.3 miles north about a mile east of Smartsville. Part of the section was graded under a previous contract.

Grass, brush and forest fires, nine times out of ten, are mancaused. Be careful with fire of any kind, anywhere.

1962 NCAA SKI MEET MAY BE AT VALLEY

Bill Kerth of Sacramento, director of ice skating events at the 1960 Winter Olympics, today said there is a good chance the 1962 NCAA Ski Championships will be held at Squaw Valley.

Kerth, manager of Squaw Valley's Blyth Arena, said William Newsom, Jr., and Alex Cushing, operators of resorts in the valley, and other groups in the area are cooperating fully and have pledged their full support in a bid for the championships.

The event will be held March 22, 23 and 24.

"Squaw Valley has proven its facilities," Kerth said, "and I believe it would be a wonderful site to hold the meet. It would be the biggest meet to be held there since the Olympics."

The NCAA event was held in Middlebury, Conn., this year.

"I have contacted Athletic Directors Pete Newell of the University of California at Berkeley and Jack Curtice of Stanford," Kerth added, "and they are enthusiastic about sponsoring the meet."

The downhill and slalom would be held on KT-22. Other events would be the cross country and 60 meter ski jumping.

YOUTH IS HELD FOR TAHOE BURGLARY

Donald Eugene Hebert, 18, of Colfax was tried in Nevada Judicial District Court before Judge Verle Gray. He was found guilty of burglarizing a summer home at Crystal Bay of whisky and other items. He was one of four involved in the crimes. The others were younger boys and were turned over to Placer County juvenile authorities.

The arrests were made by Placer and Nevada County sheriff's deputies. Being a first offense, the complaint was reduced from felony burglary to misdemeanor petty theft. He was sentenced to 90 days in county jail, 60 of which will be suspended for good behavior.

EMIGRANT GAP SALE SLATED BY HIGHWAY

The state division of highways will hold a public auction May 2 for the sale and removal of buildings, cabins, and various equipment and furnishings on U. S. 40 between Emigrant Gap and Yuba Gap, according to officials at the Marysville district office.

The land has been acquired by the state for construction of a 5.4 mile four-lane freeway which is scheduled to get underway later this year. It will connect with the completed 0.8-mile west of Emigrant Gap and extend to the junction of State Sign Route 20 about three miles west of Cisco.

All items will be open for inspection April 25 from 10:30 a. m. to 3 p. m., and on May 2 just before time of sale.

The auction will be conducted by representatives of the right of way department from the district office.

FOREST SERVICE TO FIGHT FIR ENGRAVER

The U. S. Forest Service started direct control on the fir engraver beetle this week at William Kent and Kaspian Campgrounds at Lake Tahoe.

The work is being carried out under technical direction of Assistant Ranger Norman C. Anderson of the local ranger station. Donald Vernier, Tahoe patrolman, is doing the job supervision. Jim Easton of Tahoe City, has the permit to fall the bug-infested trees. After the bug-infested trees are located and marked for falling, they are felled and sprayed with Lindane. Lindane is a contact poison and kills the beetles as they emerge from the tree. This type of control reduces the beetle population and greatly reduces the loss of fir trees. Once a fir is infested with fir engraver beetles, the tree itself cannot be saved, but by spraying with Lindane, the spread of the beetles can be reduced.

Private land owners should be aware of the increasing problem of fir engraver beetles in the Tahoe area. The past two exceptionally dry years have contributed greatly to the build up of these insects to the epidemic stage. Control is needed now before the new hatch of beetles emerge. Each landowner that has bug infested trees should make every effort to effect control. Additional information can be obtained at the U. S. Forest Service ranger station in Truckee.

What would you think of pushing buttons to make your phone calls? Well, someday you may be doing that instead of twirling a dial.

Telephone people are testing push-button phones like this in various places around the country. The tests show that most folks can push-button a number in five seconds—nearly twice as fast as they dial now.

I'm told that if these tests continue to go well our phones of the future may have push buttons instead of a dial.

Lots of new telephone ideas are heading your way. For telephone people are always working to improve your service.

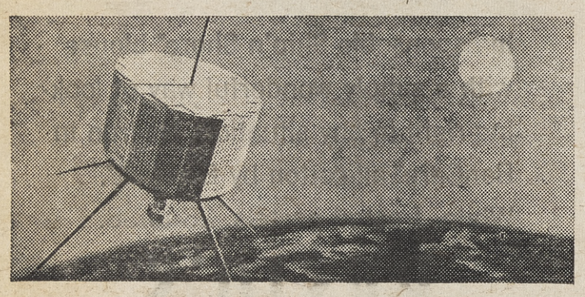
I noticed in a telephone company magazine the other day that the Bell Solar Battery was first announced seven years ago this month.

At the time, it was big news that Bell Telephone Laboratories had found a way to turn sunlight directly and efficiently into electricity. But little did we know then that solar batteries would soon make even bigger news—



as a part of satellites in outer space. That's the weather satellite Tiros II in the picture above.

The Bell Solar Batteries on the Tiros II satellite furnish the power to send radio and television messages back to earth.

Telephone research produces a steady flow of new ideas like the Bell Solar Battery. And these ideas are opening new doors in every field of communications.

Len deGallery, Pacific Telephone Company manager, looks pleased as Darol McGihon completes the installation of seat belts in the company car at Coffey's Garage. The telephone company is the first in the nation-wide Bell System to take this safety measure. All frequently used company vehicles are being equipped with the important safety devices.

TELEPHONE COMPANY FIRST IN SYSTEM TO INSTALL SEAT BELTS

A program to equip company-owned vehicles with safety seat belts is underway here by Pacific Telephone.

Len de Gallery, local telephone manager, said Pacific Telephone is the first company in the nation-wide Bell System to take this safety measure.

By April 1, he explained, the company hoped to have seat belts installed in most passenger cars. In the future, plans call for installing them in other types of frequently used vehicles.

"Seat belts will not prevent motor vehicle accidents, but research has proven that in almost all cases they will lessen the degree of injury," de Gallery said.

He noted that Pacific Telephone safety engineers considered reports of the Cornell University Medical College before starting the seat-belt program.

The reports show that four out of every five persons killed might have been saved by a seat belt. In 58 per cent of the studied fatalities, people died when they were bounced around inside their cars.

In 26 per cent of the cases, people were thrown out of their cars to their death.

The study also shows that the number of serious injuries in automobile accidents could have been greatly reduced by seat belts.

DRY YEAR EXPECTED THIS YEAR IN STATE

SACRAMENTO — (CNS) — The state department of water resources said rains during March "hardly settled the dust" and renewed its forecast the coming year will be one of the driest in 30 years.

The department's third, and most complete, monthly report of water conditions said "serious shortages of irrigation water will occur throughout most of the state, even if precipitation for the remainder of the season should be far above normal." However, the department noted the period of effective rainfall normally ends April 1.

William E. Warne, director, said shortages may occur even in municipal supplies where carry-over storage is inadequate and imported supplies are not available.

Only bright spots were in the far north. The snowpack in some northern mountains was average or above. But it was only about 50 per cent of average in the central Sierra Nevada and less than 30 per cent of average in the southern Sierra.

AFFAIRS OF STATE

by Henry C. MacArthur

SACRAMENTO—(CNS) — A battle between the state welfare board and some of California's counties loomed today as the counties became more familiar with a recent edict of the state board requiring the hiring of college graduates and the fixing of minimum salaries.

The county supervisors association bulletin said "once again the state social welfare board has exercised its regrettable authority to set standards for the compensation of county welfare workers."

The board fixed $400 per month as the minimum salary for workers, to start in 1962, but with a grandfather clause protecting those workers who presently are employed by the counties, but do not hold college degrees.

J. M. Wedemeyer, director of the department of social welfare, said the board's action reflects the need for better personnel.

"The quality of the welfare staff," he declared, "has been declining during the past few years, particularly in the non-metropolitan areas. Consequently, the board decided to require an A.B. degree as a condition of employment in the future."

Present minimum for welfare workers, the director said, is $341 per month.

However, what the supervisors association fears is not the increase in welfare workers minimums, but the effect increasing the minimum will have on workers in comparable classes. The extent of the cost to taxpayers, the supervisors point out, can't be estimated at this time.

Wedemeyer said that the increased salary costs for the welfare workers would amount from $100,000 to $300,000 annually, depending on the effect the minimum would have on other welfare workers.

The fixing of a requirement that welfare workers must have a college degree in the future goes beyond the requirements of state law as related to civil service.

While there is no requirement for college education in the civil service laws, the intent being in the law that qualified people would be considered for state jobs, nevertheless, the welfare board itself has authority to fix minimum standards for hiring the welfare workers, and has chosen to make an A.B. degree such a standard.

However, the board has not designated as yet what kind of an A.B. degree will be required. Wedemeyer said these would be in "related fields" and mentioned the possibility of a degree in education as one of the fields which might be related.

Asked what the welfare workers are supposed to do which makes a college degree necessary for hiring, Wedemeyer said they handle cases, establish eligibility, see that the proper amounts is paid to the applicant, and take steps to correct conditions in a family which brings about the need for state aid.

Also, he said where old age assistance recipients are concerned, the welfare workers watch the health of elderly people, and attempt to see that their health standards are met so the cases will not become subject later to more expensive treatment in hospitals or outside homes.

Sales Tax Survey Is Made In County

With the cities of Grass Valley and Nevada City making a bid for a larger share of the county sales tax, figures have been computed which tend to show the present distribution.

At the present time the two incorporated cities are receiving 70 per cent with 30 per cent collected within the cities going to the county. The cities are asking a 90 per cent share, with the county to receive only 10 per cent.

Supervisor H. G. Loehr, chairman of the board, said this week that during 1960 a total of $280,660.17 was collected in sales tax of which Grass Valley received $74,784.26, Nevada City $23,604.39 and the county $182,267.52.

On a percentage basis that gave Grass Valley 26.65 per cent; Nevada City, 8.41 per cent and the balance of the county 64.94 per cent. On a population basis, with Grass Valley at 5,122, Nevada City, 2,542 and the balance of the county, 13,344, Grass Valley received 24.38 per cent; Nevada City, 12.1 per cent and the balance of the county 63.52 per cent, the analysis reveals.

This would indicate that the unincorporated portions of the county is receiving a rather small share of the tax, while Grass Valley is receiving more than its share on a population basis.

Famous School Of Trout Disappears

TAHOE CITY — What has happened to the large school of big German brown trout which frequented the pool just below the outlet dam on the Truckee River?

This is the question which is puzzling state fish and game biologists.

For many years the huge trout school comprised one of Tahoe City's prime tourist attractions and many small businesses were formed near the dam because so many people stopped there to view and feed the fish.

A recent survey of the pool revealed that only one large trout was left. It is feared that the trout may have died as the result of construction work which has been going on in clearing a channel below the dam. It is also possible some may have gone downstream.

Almo Cordone, state fish and game biologist in charge of a fish planting and experimental project at Lake Tahoe, said the fish and game department will not replace the trout since it is against the policy to plant waters which are closed to angling.

Many tall tales have been told about the big trout. They have been game for many illegal anglers who could not resist the temptation offered as the huge fish swam back and forth in the clear water.

Skin divers have been arrested by wardens and one boy was reported to have carefully placed a baited hook on a rock near the pool, then strolled downstream past the nearest no fishing sign and gave the line a jerk. He was promptly nabbed by a game warden. Another boy was said to have slipped a fish line up the leg of his trousers, tossed the baited hook into the water, snagged a big trout and pulled it up his pants leg and ran home.

At any rate it appears these stories are over and that tourists leaning over the bridge railing in the future will not be greeted by one of the greatest thrills possible for a fisherman to receive.

RAGAMUFFINS ARE AT NEVADA LODGE

CRYSTAL BAY — Don Santora and his Ragamuffins are now entertaining in the theater-lounge of the Nevada Lodge, the 100-room, hotel-casino located at the north end of Lake Tahoe.

Don Santora and his Ragamuffins will be presenting their own special brand of humor, music and instrumental styling for the pleasure of Nevada Lounge patrons through May 2.

BELMONT MAN WILL BE LOCAL OFFICIAL

Conidaris, age 32, comes to the position with thorough training and experience. He has a bachelor degree in sociology from Long Beach State College and took advance studies in juvenile delinquency, criminology, probation and parole contemporary treatment of law violators at Los Angeles State College.

He served a hitch in the Marine Corps where he was a judo instructor and top boxer.

He comes to Nevada County from San Mateo County where he has served as assistant probation officer for the last two and one-half years.

He will take over the duties of the office the first day of May. Bert Russell, who has carried on the work of probation officer since the resignation of Floyd Pond, will retire as of that date to spend his time fishing.

STOCKTON MAN HELD FOLLOWING MISHAP

John W. D. Cassidy, Stockton, was arrested by California Highway Patrolmen near Truckee. He is charged with two offenses, driving while under the influence of intoxicating liquor and failing to stop and report a minor accident in which his car was involved.

He was booked in the county jail and held on a bail of $618. He posted the bail and was released to stand trial in Truckee Judicial Court on April 21.

ARE YOU GOING TO START TO PLANT NOW, DADDY?

NO. I'M WAITING FOR CHARLIE STERN TO COME OVER AND HELP ME.

HERE I AM! LET'S TAKE A LOOK--

WHAT YOU NEED IS A LOAD OF TOP SOIL, BEFORE YOU START TO PLANT, TOM. THIS SOIL ISN'T DEEP ENOUGH TO GROW CRAB-GRASS.

WHERE CAN I GET TOP SOIL?

I GOT SOME LAST WEEK—

CALL HOKE WOODWARD - THAT'S WHERE I GOT MY SOIL!

IS IT EXPENSIVE?

AND HOW! AND YOU HAVE MORE GROUND THAN I HAVE.

YOU MEAN YOU HAVE TO **PAY** FOR DIRT!
